

INTERIOR DESIGN: LET YOUR SPACE SPARKLE IN 2017!

Hollywood Regency decor has been making a comeback of late. Originally popularized in the 1930s among the Hollywood set designers with signature glitz and glam, today's Hollywood Regency style surge is being combined with modern elements for a more liveable look.

You probably recognize Hollywood Regency hallmarks of style: mirrored consoles, crystal lamps, bold geometric textiles, and polished gold accents. Most people aren't aware, however, that Hollywood Regency style is defined by the:

- Composition of pieces;
- Size and scale (originally small for use on film sets and perfect for today's apartments);
- Form (furniture pieces have clean lines); and
- Fine detailing (think fringe, facets, and laquer to make up for the simple form).

The overriding goal of Hollywood Regency design is to pair "clean" with "fussy" and to do so in a way that brings people together within a space. In the project featured above, we introduced a bit of the Hollywood Regency concept to an otherwise monochromatic modern decor by creating a designated space for cocktail hour -- arranging two smaller sofas directly opposite to encourage conversation and sprinkling a bit of glam throughout using an acrylic table, fractured mirror, cut loop heathered wool rug, and "Vivacious Stone" velvet fabric. Add a little Hollywood Regency to your space this year! [Contact Gigi](#) to get started.
