REMODELING: GETTING ORGANIZED BEFORE SCHOOL BEGINS

It's that time of year - when shopping lists are made, school supplies purchased, and we get the urge to organize our space before schedules fill with fall sports, trips to the bus stop, evening homework, and, of course, our own hectic adult lives.

The solution? Functional, well appointed storage for the mudroom entry. Here are a few design elements that we include in every mudroom:

- * **Open "locker" system** for everyday items
- * **Closed storage** for off-season items
- * Waterproof, roll-out **shoe trays**
- * **Stone bench** (for sitting or reaching high shelves)
- * Varied **coat hooks** - so that the tall and small can reach their stuff
- * **Standing height desk** (a.k.a., the "drop zone") for dumping mail, charging phones, and pinning up school notes, calendars, and coupons.

The best part about this space? Hidden within the toe-kick of the tall closed cabinet is a [central vac-pan](#) allowing for quick clean up in this heavy traffic area! [Contact us](#) when you're ready to get organized!
