DESIGN/BUILD REVIEW

VOLUME 17, ISSUE 9

INTERIOR DESIGN TAKE AWAY

Did you visit the *ASID MN Showcase House* on Lake Minnetonka last month? If so, we hope you noticed one of our favorite design features: cabinet doors papered in grasscloth. So simple and, yet, so stunning!

Wallpaper of any design can be added to flat panel cabinet doors if they are properly prepared during the painting/enameling phase. The Showcase designers got it right by specifying a heavy grained synthetic grasscloth on the powder bath doors as it offers more longevity and durability than natural grasscloth. The grasscloth cabinet paper was paired with a subtle botanical paper on the walls. Simply beautiful. We can't wait to use this idea in a project soon!

REMODELING: KITCHEN APPLIANCES

COOKING UP NEW IDEAS: THERE'S MORE THAN ONE WAY TO ROAST A TURKEY!

The DiGiacomo Homes design team was recently invited to attend a three-day cooking event at the World of [Whirlpool/Jenn-Air studio](#) in Chicago. It was great fun and we learned that there truly is more than one way to prepare and enjoy your turkey! Consider, for example:

- * [Convection](#) and [speed ovens](#) for roasting;
- * [Induction](#) stovetop browning; and
- * [Steam oven](#) reheating

These appliances are now considered kitchen "basics" in addition to the traditional range. The appliances you choose will depend on what you cook, how you cook, and how much time you spend in the kitchen. In addition, to these appliance "basics" there are exciting "add-on" options including modular (15" wide) stove top gas and induction surfaces, barista coffee centers, built-in woks and non-stick griddles. Some high end appliances come with built-in smart technology - pre-programmed guides for cooking, baking and roasting. If this concept is new to you, we highly recommend watching the "[Culinary Center](#)" link. You'll be hooked!

If you are planning a kitchen remodel and want to learn more about your options, visit [Jenn-Air](#) on line or [Warners Stellan](#) in person for an introduction to some of the latest appliance technologies or contact DiGiacomo Homes and we'll walk you through some of the alternatives!

CONTACT US

DiGiacomo Homes & Renovation, Inc. is an [award winning](#), husband and wife, design-build firm that has been honored to bring timeless beauty, value, and sustainability to neighborhoods throughout the Twin Cities for more than 25 years. Our services include site analysis, architectural design, interior design, and construction. As always, [contact us](#) with questions or when ready to begin your custom home or remodel project.
