# Outdoors In

## Built by DiGiacomo Homes

The outdoor patio space was fully integrated with the home's main-level roll-up phantom screen which connected to the house via 12 foot wide bi-fold doors. Southern-based companies were the first to envision a high-tech bi-fold door that perfectly connects indoor and outdoor spaces. DiGiacomo Homes waited until Marvin Windows and Doors released a similar version specifically suited for colder climates before installing this beautiful product locally.

INTERIOR SHOTS: SUSAN GILMORE PHOTOGRAPHY  
EXTERIOR SHOTS: PAUL MARKERT, MARKERT PHOTO, INC.

Clean lines, cool palette and uber-green construction made this Dream Home truly special.
