## INTERIOR DESIGN: ADDING COLOR WITH SOFT FURNISHINGS AND TEXTILES

Designers and homeowners continue to love the gray/white palette - and why not? It's a classic, timeless combination. Yet, what has become today's most favored color scheme can sometimes feel a bit flat until infused with a bit of texture, pattern or color. If you're looking to liven up or finish off a space, one simple yet powerful way to do so is with soft furnishings and textiles such as: roman blinds, drapes, pillows, duvets and upholstered stools and chairs. Textiles with bold colors or patterns can change the mood of a room instantly without much expense. The best part? There are literally thousands of patterns, colors and textures to choose from - one is certain to suit your tastes, style and space! Take a look at some of the textiles below from [Schumacher](#) (one of our favorite manufacturers). Can you imagine how these might transform a room in your home?

DiGiacomo Homes offers custom upholstery and blind/drape services as part of our interior design portfolio. [Contact us](#) when you're ready to add a bit of color to your space - we'll be happy to help select textiles, design the piece, and have it made just for you!
