REMODELING: MASTER BATHS

MIDCENTURY MODERN MAKEOVER: EDINA MASTER BATH

DiGiacomo Homes introduced finishes selected for this Mid-Century master bath remodel in our April e-newsletter. (Remember the Valentino fashion-inspired palette?) We are proud to share photos from the completed project below!

The space was designed to be bright and white since the room has no windows or access to natural light. Over the white, we layered a sophisticated palette of finishes that embrace color, pattern, and texture: 1) long hex accent tile in "lemongrass" gold (mounted vertically for a new take on mid-century aesthetics) to serve as a spirited focal point; 2) large format slate gray floor tile to ground the room; 3) textured 2X10 glossy white shower field tile to brighten the space; and 4) solid walnut, with heavy vertical graining, used for the cabinets, cabinet wraps, and base trim, to provide rich contrast and to honor Mid-Century aesthetics. For more information on this project, visit [DiGiacomo Homes.com](#).

BEFORE: The bath was segmented, cramped and outdated. We removed walls to open the space, shifted and enlarged the vanity and shower to improve functionality, and added more lighting to brighten the space.
