

## RETHINKING STORAGE FOR SMALL SPACES

Tight on space? Creative design and custom cabinets are a win-win for small spaces in need of functional storage.

You'll see, for example, how custom built cabinets allowed us to take advantage of every nook in the MN cabin pictured. We designed storage for games beneath the stairs using angled drawers and built-in wardrobes to sit atop nightstands in the main floor bedroom that had no closet or other storage space.

As a design-build firm, we love working in small spaces to make the most of every room. If you are craving more functional storage but don't think you have the space needed, give us a [call or contact us by email](#). We'd love to work with you to help remake your space - big or small!

## BOOKS: WHAT WE'RE READING

Repainting is one of the easiest and most cost effective ways to transform a room and yet, it can be challenging to know which color to select. In fact, one of the most common interior design questions we're asked by clients is "what color should I paint my walls?" We know that, after spending so much time at home this spring and summer, a lot of you are making small changes to spruce things up. So, we thought you might enjoy reading some of our favorite books about color and about how to select what's right for your space!
